

The doctor or nurse can't hear me

Last Modified on 09/16/2022 5:29 am EDT

If the clinician is unable to hear you while you are on the call, check the following:

- If an external mic is connected, check if it is plugged in properly.
- Make sure that the correct microphone is selected.
- Check microphone permissions.
- Make sure the microphone isn't muted. If you speak while on mute then a notification "You're muted. Unmute to speak" is displayed.

You can check the hardware requirements for the microphone and speaker from the below table.

OS	Speaker & Mic
Windows	Any built-in or standalone
macOS	Any built-in or standalone
Android	Any built-in or standalone
Apple iOS	Any built-in or standalone
