Do I get a prescription after the appointment? Last Modified on 06/11/2020 4:19 am EDT

Should a prescription be required following your video consultation, the clinician will arrange for this to be sent to the hospital pharmacy, who will let you know when it is ready for collection, or they will write to your GP who will arrange a new prescription for you in their usual way. Please check with the clinician during your video consultation which method will be used.
